NOTES ON PLAYING ELLINGTON

At least 95% of modern-day large ensemble jazz playing comes out of three traditions: Count Basie's band, Duke Ellington's band, and the orchestrations of small groups. Those young players interested in jazz will be drawn to small groups for the opportunity to improvise and for practical reasons (it is much easier to organize 4 or 5 people than it is 15). Schools have taken over the task (formerly performed by dance bands) of training musicians to be ensemble players. Due to the Basie Band's popularity and its simplicity of style and emphasis on blues and swing, the better educators have almost exclusively adopted this tradition for teaching jazz ensemble playing. As wonderful as Count Basie's style is, it doesn't address many of the important styles developed under the great musical umbrella we call jazz. Duke Ellington's comprehensive and eclectic approach to music offers an alternative.

The stylistic richness of Ellington's music presents a great challenge to educators and performers alike. In Basie's music, the conventions are very nearly consistent. In Ellington's, there are many more exceptions to the rules. This calls for greater knowledge of the language of jazz. Clark Terry, who left Count Basie's band to join Duke Ellington, said, "Count Basie was college, but Duke Ellington was graduate school." Knowledge of Ellington's music prepares you to play any big band music.

The following is a list of performance conventions for the great majority of Ellington's music. Any deviations or additions will be spelled out in the individual performance notes which follow.

1. Listen carefully many times to the Ellington recording of these pieces. There are many subtleties that will elude even the most sophisticated listener at first. Although it was never Ellington's wish to have his recordings imitated, knowledge of these definitive versions will lead musicians to make more educated choices when creating new performances. Ellington's music, though written for specific individuals, is designed to inspire all musicians to express themselves. In addition, you will hear slight note differences in the recording and the transcriptions. This is intentional, as there are mistakes and alterations from the original intent of the music in the recording. You should have your players play what's in the score.
2. General use of swing phrasing. The triplet feel prevails except for ballads or where notations such as even eighths or Latin appear. In these cases, eighth notes are given equal value.
3. There is a chain of command in ensemble playing. The lead players in each section determine the phrasing and volume for their own section, and their section-mates must conform to the lead. When the saxes and/or trombones play with the trumpets, the lead trumpet is the boss. The lead alto and trombone must listen to the first trumpet and follow her. In turn, the other saxes and trombones must follow their lead players. When the clarinet leads the brass section, the brass should not overblow him. That means that the first trumpet is actually playing "second." If this is done effectively, there will be very little balancing work left for the conductor.
4. In Ellington's music, each player should express the individuality of his own line. He must find a musical balance of supporting and following the section leader and bringing out the character of the underpart. Each player should be encouraged to express his or her personality through the music. In this music, the underparts are played at the same volume and with the same conviction as the lead.
5. Blues inflection should permeate all parts at all times, not just when these opportunities occur in the lead.
6. Vibrato is used quite a bit to warm up the sound. Saxes (who most frequently represent the sensual side of things) usually employ a heavy vibrato on harmonized passages and a slight vibrato on unisons. Trumpets (who very often are used for heat and power) use a little vibrato on harmonized passages and no vibrato on unisons. Trombones (who are usually noble) do not use slide vibrato. A little lip vibrato is good at times. Try to match the speed of vibrato. Unisons are played with no vibrato.
7. Crescendo as you ascend and diminuendo as you descend. The upper notes of phrases receive a natural accent and the lower notes are ghosted. Alto and tenor saxophones need to use subtone in the lower part of their range in order to blend properly with the rest of the section. This music was originally written with no dynamics. It pretty much follows the natural tendencies of the instruments; play loud in the loud part of the instrument and soft in the soft part of the instrument. For instance, a high C for a trumpet will be loud and a low C will be soft.
8. Quarter notes are generally played short unless otherwise notated. Long marks above or below a pitch indicate full value: not just long, but full value. Eighth notes are played full value except when followed by a rest or otherwise notated. All notes longer than a quarter note are played full value, which means if it is followed by a rest, release the note where the rest appears. For example, a half note occurring on beat one of a measure would be released on beat three.
9. Unless they are part of a legato background figure, long notes should be played somewhat *fp*; accent then diminish the volume. This is important so that the moving parts can be heard over the sustained notes. Don't just hold out the long notes, but give them life and personality: that is, vibrato, inflection, crescendo, or diminuendo. There is a great deal of inflection in this music, and much of this is highly interpretive. Straight or curved lines imply non-pitched glisses, and wavy lines mean scalar (chromatic or diatonic) glisses. In general, all rhythmic figures need to be accented. Accents give the music life and swing. This is very important.
10. Ellington's music is about individuality: one person per part—do not double up because you have extra players or need more strength. More than one on a part makes it sound more like a concert band and less like a jazz band.
11. This is acoustic music. Keep amplification to an absolute minimum; in the best halls, almost no amplification should be necessary. Everyone needs to develop a big sound. It is the conductor's job to balance the band. When a guitar is used, it should be a hollow-body, unamplified rhythm guitar. Simple three-note voicings should be used throughout. An acoustic string bass is a must. In mediocre or poorly designed halls, the bass and piano may need a bit of a boost. I recommend miking them and putting them through the house sound system. This should provide a much better tone than an amplifier. Keep in mind that the rhythm section's primary function is to accompany. The bass should not be as loud as a trumpet. That is unnatural and leads to over-amplification, bad tone, and limited dynamics. Stay away from monitors. They provide a false sense of balance.
12. Solos and rhythm section parts without chord changes should be played as is or with a little embellishment. Solos and rhythm section parts with chord changes should be improvised. However, written passages should be learned because they are an important part of our jazz heritage and help the player understand the function of his particular solo or accompaniment. Soloists should learn the chord changes. Solos should not be approached as opportunities to show off technique, range, or volume, but should be looked at as a great opportunity to further develop the interesting thematic material that Ellington has provided.
13. The notation of plungers for the brass means a rubber toilet plunger bought in a hardware store. Kirkhill is a very good brand (especially if you can find one of their old rubber ones, like the one I loaned Wynton and he lost). Trumpets use 5" diameter and trombones use 6" diameter. Where Plunger/Mute is notated, insert a pixie mute in the bell and use the plunger over the mute. Pixies are available from Humes & Berg in Chicago. Tricky Sam Nanton and his successors in the Ellington plunger trombone chair did not use pixies. Rather, each of them employed a Nonpareil (that's the brand name) trumpet straight mute. Nonpareil has gone out of business, but the Tom Crown Nonpareil trumpet straight mute is very close to the same thing. These mutes create a wonderful sound (very close to the human voice), but they also create some intonation problems which must be corrected by the lip only. It would be easier to move the tuning slide, but part of the sound is in the struggle to correct the pitch. If this proves too much, stick with the pixie—it's pretty close.

14. The drummer is the de facto leader of the band. He establishes the beat and controls the volume of the ensemble. For big band playing, the drummer needs to use a larger bass drum than he would for small group drumming. A 22" is preferred. The bass drum is played softly (nearly inaudible) on each beat. This is called feathering the bass drum. It provides a very important bottom to the band. The bass drum sound is not a boom and not a thud—it's in between. The larger size drum is necessary for the kicks; a smaller drum just won't be heard. The key to this style is to just keep time. A rim knock on two and four (chopping wood) is used to lock in the swing. When it comes to playing fills, the fewer, the better.
15. The horn players should stand for their solos and solis. Brass players should come down front for moderate to long solos, surrounding rests permitting. The same applies to the pep section (two trumpets and one trombone in plunger/mutes).
16. Horns should pay close attention to attacks and releases. Everyone should hit together and end together.
17. Brass must be very precise when playing short notes. Notes must be stopped with the tongue, à la Louis Armstrong!!
18. Above all, everyone's focus should remain at all times on the swing. As the great bassist Chuck Israels says, "The three most important things in jazz are rhythm, rhythm, and rhythm, in that order." Or as Bubber Miley (Ellington's first star trumpeter) said, "It don't mean a thing if it ain't got that swing."

GLOSSARY

The following are terms which describe conventions of jazz performance, from traditional New Orleans to the present avant garde.

- Break** — within the context of an ongoing time feel, the rhythm section stops for one, two, or four bars. Very often a soloist will improvise during a break.
- Call and response** — repetitive pattern of contrasting exchanges (derived from the church procedure of the minister making a statement and the congregation answering with "amen"). Call-and-response patterns usually pit one group of instruments against another. Sometimes we call this "trading fours," "trading twos," etc., especially when it involves improvisation. The numbers denote the amount of measures each soloist or group plays. Another term frequently used is "swapping fours."
- Coda** — also known as the "outro." "Tags" or "tag endings" are outgrowths of vaudeville bows that are frequently used as codas. They most often use deceptive cadences that finally resolve to the tonic, or they go from the tonic to the sub-dominant and cycle back to the tonic: I V/IV IV #IV° I (second inversion) V/II V/V V I.
- Comp** — improvise accompaniment (for piano or guitar).
- Groove** — the composite rhythm. This generally refers to the combined repetitive rhythmic patterns of the drums, bass, piano, and guitar, but may also include repetitive patterns in the horns. Some grooves are standard (i.e., swing, bossa nova, samba), while others are manufactured (original combinations of rhythms).
- Head** — melody chorus.
- Interlude** — a different form (of relatively short length) sandwiched between two chorus forms. Interludes that set up a key change are simply called modulations.
- Intro** — short for introduction.
- Ride pattern** — the most common repetitive figure played by the drummer's right hand on the ride cymbal or hi-hat.

- Riff** — a repeated melodic figure. Very often, riffs repeat verbatim or with slight alterations while the harmonies change underneath them.
- Shout chorus** — also known as the "out chorus," the "sock chorus," or sometimes shortened to just "the shout." It is the final ensemble passage of most big band charts and where the climax most often happens.
- Soli** — a harmonized passage for two or more instruments playing the same rhythm. It is customary for horn players to stand up or even move in front of the band when playing these passages. This is done so that the audience can hear them better and to provide the audience with some visual interest. A soli sound particular to Ellington's music combines two trumpets and a trombone in plungers/mutes in triadic harmony. This is called the "pep section."
- Stop time** — a regular pattern of short breaks (usually filled in by a soloist).
- Swing** — the perfect confluence of rhythmic tension and relaxation in music creating a feeling of euphoria and characterized by accented weak beats (a democratization of the beat) and eighth notes that are played as the first and third eighth notes of an eighth-note triplet. Duke Ellington's definition of swing: when the music feels like it is getting faster, but it isn't.
- Vamp** — a repeated two- or four-bar chord progression. Very often, there may be a riff or riffs played on the vamp.
- Voicing** — the specific spacing, inversion, and choice of notes that make up a chord. For instance, two voicings for G7 could be:

Note that the first voicing includes a 9th and the second voicing includes a b9 and a 13. The addition of 9ths, 11ths, 13ths, and alterations are up to the discretion of the pianist and soloist.

THE FOUR ELEMENTS OF MUSIC

The following are placed in their order of importance in jazz. We should never lose perspective on this order of priority.

- RHYTHM** — meter, tempo, groove, and form, including both melodic rhythm and harmonic rhythm (the speed and regularity of the chord changes).
- MELODY** — what players play: a tune or series of notes.
- HARMONY** — chords and voicings.
- ORCHESTRATION** — instrumentation and tone colors.

C Jam Blues

Instrumentation:

Reed 1 Alto Sax	Trombone 1
Reed 2 Alto Sax	Trombone 2
Reed 3 Tenor Sax/Clarinet	Trombone 3 (opt. Valve)
Reed 4 Tenor Sax	Guitar
Reed 5 Baritone Sax	Piano
Trumpet 1	Bass
Trumpet 2 (opt. Violin)	Drums
Trumpet 3 (opt. Cornet)	Violin

Original Recording Information:

C Jam Blues, by Duke Ellington (2:37)

Recorded 1/21/42, Chicago

The Blanton-Webster Band (RCA/Ariola International 5659-2-RB, Victor 070683-1)

Otto Hardwick, Johnny Hodges, Barney Bigard, Ben Webster, and Harry Carney, reeds; Wallace Jones and Ray Nance, trumpets; Rex Stewart, cornet; Lawrence Brown and Joe "Tricky Sam" Nanton, trombones; Juan Tizol, valve trombone; Fred Guy, guitar; Duke Ellington, piano; Junior Raglin, bass; Sonny Greer, drums.

Rehearsal Notes:

- "C Jam Blues" has got to be the simplest jazz tune ever written, which I am sure explains its popularity almost 50 years after its creation. The tune is Ellington and the last two choruses of ensemble are most probably Strayhorn.
- Many jazz musicians have played and recorded this piece over the years. When I joined Lionel Hampton's band many years ago, some of his musicians warned me that he liked to play almost everything in the key of E \flat . This proved to be true when we played "C Jam Blues" in E \flat .
- The trick in the form is that each solo begins with a four-bar break and is followed by a complete 12-bar blues chorus. Normally when we play a four-bar break at the top of a blues chorus, the rhythm section comes in on the fifth bar of the blues, so that the form is 12 bars in all. The tradition on "C Jam Blues" is to add the four-bar break to the top of the form so that a 16-bar form is created. When I played this chart in the Ellington band, each soloist got two choruses: the first with a four-bar break (16 bars) and the second without a break (12 bars). The background behind the clarinet solo remained his second chorus. We also repeated the shout chorus.

- If you don't have a violin, you can re-assign that solo to any of the soloists in the band. In fact, any of the solos (with the exception of the clarinet) may be re-assigned at the discretion of the leader.
- Notice how simply the rhythm section plays. The emphasis here is on the swing. The more repetition, the more groove. This doesn't apply to only the rhythm section. Everyone needs to be swinging, which means putting your notes in the slot. Don't hide your inability to find the slot with a flurry of notes. Simplify and keep working on finding the groove and staying in there. After being able to swing simply for a while, you can gradually add more notes and play faster as long as it is swinging. Never sacrifice the swing because that is the main thing we as players and listeners care about.
- Some bands might look down on this piece as too simple, too elementary. The hardest music to play is that music that has the least amount of notes because there is no virtuosity to hide behind. You must play every note with conviction, swing, tone, and blues feeling. Here is a chart that nearly every band in America can play technically. But how many bands can play it with so much spirit and authenticity that the audience will be compelled to leap out of their seats and dance? This is our goal—truly swinging.

— David Berger

Note From Wynton Marsalis:

This is the most basic blues in all of jazz. Swing.

C Jam Blues

A

This musical score is for the rehearsal mark 'A' of the piece 'C Jam Blues'. It features a full orchestral arrangement with the following parts:

- Alto:** Two staves, both in treble clef with a key signature of two sharps (F# and C#). The notation includes eighth and quarter notes, with a dynamic marking of *mf*.
- Tenor:** Two staves, both in treble clef with a key signature of two sharps. The notation includes eighth and quarter notes, with a dynamic marking of *mf*.
- Bari.:** One staff in treble clef with a key signature of two sharps. The notation includes eighth and quarter notes, with a dynamic marking of *mf*.
- Tpt. 1-3:** Three staves in treble clef with a key signature of two sharps. These staves are currently blank.
- Tbn. 1-3:** Three staves in bass clef with a key signature of two sharps. These staves are currently blank.
- Vln.:** One staff in treble clef with a key signature of two sharps. This staff is currently blank.
- Gtr.:** One staff in treble clef with a key signature of two sharps. It contains rhythmic slash notation and chord symbols: G7, C, C, and C7.
- Pno.:** Two staves (treble and bass clef) with a key signature of two sharps. The right hand has chords and melodic lines, while the left hand has a bass line. Chord symbols G7, C, and C7 are present. A dynamic marking of *f* is shown.
- Bass:** One staff in bass clef with a key signature of two sharps. It features a walking bass line with chord symbols G7, C, and C7.
- Drs.:** One staff in bass clef with a key signature of two sharps. It contains a rhythmic pattern with a dynamic marking of *mf*.

A large red watermark reading 'Preview Only' is overlaid diagonally across the entire score, with the text 'Legal use requires purchase' written below it.

This musical score is for the piece "C Jam Blues" on page 3. It features the following parts and details:

- Alto:** Two staves with melodic lines in G major.
- Tenor:** Two staves with melodic lines in G major.
- Bari.:** One staff with a melodic line in G major.
- Tpt. 1-3:** Three staves, mostly containing rests. A "Violin cue" is indicated for the second trumpet part.
- Tbn. 1-3:** Three staves, mostly containing rests.
- Vln.:** One staff with a "Solo" cue at the end.
- Gtr.:** One staff with rhythmic slash notation. Chord changes are marked as F7, C, G7, C, and G7+5.
- Pno.:** Two staves (treble and bass clef) with a melodic line in the treble and accompaniment in the bass. Chord changes are marked as F7, C, G7, C, and G7+5.
- Bass:** One staff with a walking bass line. Chord changes are marked as F7, C, G7, and C.
- Drs.:** One staff with a drum pattern.

This musical score is for the piece 'C Jam Blues' and is arranged for a 12-piece band. The instruments and their parts are as follows:

- Alto:** Two staves, both containing whole rests.
- Tenor:** Two staves, both containing whole rests.
- Bari.:** One staff containing a whole rest.
- Tpt. 1:** Three staves. The top staff has a melodic line with notes and rests, including a triplet of eighth notes. Chord markings D7, G7, and D are present. The middle and bottom staves contain whole rests.
- Tbn. 1:** Three staves, all containing whole rests.
- Vln.:** One staff with a melodic line, including a triplet of eighth notes. Chord markings C7, F7, and C are present.
- Gtr.:** One staff with a slash through the staff, indicating a guitar solo or a specific rhythmic pattern.
- Pno.:** Two staves. The right hand has chords and the left hand has bass notes. Chord markings C, C7, F7, and C are present.
- Bass:** One staff with a walking bass line. Chord markings C7, F7, and C are present.
- Drs.:** One staff with a rhythmic accompaniment pattern.

A large, diagonal red watermark reading 'Preview Only' is overlaid across the entire score, with the text 'Legal Use Requires Purchase' written below it.

C Jam Blues

This musical score is for the piece "C Jam Blues" and is arranged for a 12-piece band. The instruments and their parts are as follows:

- Alto:** Two staves, both of which are currently blank.
- Tenor:** Two staves, both of which are currently blank.
- Bari. (Baritone):** One staff, currently blank.
- Tpt. 1 (Trumpet 1):** Three staves. The top staff (1) contains a melodic line with notes and rests. The middle (2) and bottom (3) staves are blank.
- Tbn. 1 (Trombone 1):** Three staves, all of which are blank.
- Vln. (Violin):** One staff with a melodic line, including triplets and slurs.
- Gtr. (Guitar):** One staff with rhythmic notation (slashes) and chord changes: G7, Db9, C, and Db9.
- Pno. (Piano):** Two staves (treble and bass clef) with chordal accompaniment and chord changes: G7, Db9, C, and Db9.
- Bass:** One staff with a walking bass line.
- Drs. (Drums):** One staff with a drum pattern.

The score includes various musical notations such as slurs, triplets, and dynamic markings. A large, diagonal red watermark reading "Preview Only" is overlaid across the entire page, with the text "Legal Use Requires Purchase" written below it.

C Jam Blues

C

The musical score is arranged in a standard orchestral layout. The instruments and their parts are as follows:

- Alto:** Two staves, both containing whole rests.
- Tenor:** Two staves, both containing whole rests.
- Bari.:** One staff containing a whole rest.
- Tpt. 1 & 2:** Two staves, both containing whole rests.
- Tbn. 1 & 2:** Two staves, both containing whole rests.
- Vln.:** One staff containing a whole rest.
- Gtr.:** One staff with a C chord in the first measure, followed by slashes, and then C and Db9 chords in the final two measures.
- Pno.:** One staff with a C chord in the first measure, followed by slashes, and then C and Db9 chords in the final two measures.
- Bass:** One staff with a C chord in the first measure, followed by slashes, and then a melodic line in the final two measures.
- Drs.:** One staff with a C chord in the first measure, followed by slashes, and then a rhythmic pattern in the final two measures.

The 3rd Tpt. staff contains a solo for the closed plunger with a pixie effect, starting with a D chord. The solo consists of a series of eighth and sixteenth notes, including a triplet, and ends with a final note. The 3rd Tbn. staff contains a whole rest.

A large red watermark reading "PREVIEW ONLY" is oriented diagonally across the page, and "Legal Use Requires Purchase" is written below it.

C Jam Blues

This musical score is for the piece "C Jam Blues" and is arranged for a large ensemble. The instruments listed on the left are Alto (two staves), Tenor (two staves), Bari. (Baritone Saxophone), Tpt. 1 (Trumpet 1), Tpt. 2 (Trumpet 2), Tpt. 3 (Trumpet 3), Tbn. 1 (Tuba 1), Tbn. 2 (Tuba 2), Tbn. 3 (Tuba 3), Vln. (Violin), Gtr. (Guitar), Pno. (Piano), Bass, and Drs. (Drums). The score is written in 4/4 time with a key signature of one sharp (F#). A large red watermark is overlaid diagonally across the page, reading "Preview Only" and "Legal Use Requires Purchase".

The score includes the following details:

- Alto:** Two staves, both currently blank.
- Tenor:** Two staves, both currently blank.
- Bari.:** One staff, currently blank.
- Tpt. 1:** Three staves. The top two are blank. The bottom staff (Tpt. 3) contains a melodic line with notes and rests, including a **D7** chord marking above a measure.
- Tbn. 1:** Three staves, all currently blank.
- Vln.:** One staff, currently blank.
- Gtr.:** One staff showing a rhythmic pattern of slashes, with chord markings **C**, **C9**, **F7**, and **C** above the staff.
- Pno.:** One grand staff (treble and bass clefs) showing a harmonic accompaniment with chord markings **C**, **C9**, **F7**, and **C** above the treble clef, and **C7** below the bass clef.
- Bass:** One staff showing a walking bass line with notes and rests.
- Drs.:** One staff showing a drum pattern with notes and rests.

Detailed description of the musical score: The score is for a blues jam session in C major. It features a 12-measure structure. The Alto and Tenor saxophones are mostly silent, with a 'Solo' section for the second Tenor saxophone in the final measure. The Trumpet section (1, 2, 3) has a melodic line in the third measure, with a '1/2 valve' instruction for the third player. The Trombone section (1, 2, 3) is silent. The Violin part is silent. The Guitar part consists of chords: G7, Db9, C, and Db9. The Piano part features chords: G7, Db9, C, and Db9. The Bass part has a walking line with notes: G2, A2, B2, C3, D3, E3, F3, G3, A3, B3, C4, D4, E4, F4, G4, A4, B4, C5. The Drums part has a steady pattern of eighth notes.

This musical score is for the piece "C Jam Blues" and is arranged for a 12-piece band. The instruments and their parts are as follows:

- Alto:** Two staves, both containing whole rests.
- Tenor:** One staff with a melodic line. Chord changes are indicated as D7, G7, and D. A triplet of eighth notes appears in the final measure.
- Bari.:** One staff with whole rests.
- Tpt. 1:** Three staves, all containing whole rests.
- Tbn. 1:** Three staves, all containing whole rests.
- Vln.:** One staff with whole rests.
- Gtr.:** One staff with rhythmic slash notation. Chord changes are indicated as C, C9, F7, C, and C9.
- Pno.:** Two staves. The right hand has chords and some melodic fragments. The left hand has chords and a walking bass line. Chord changes are indicated as C, C9, F7, C, and C9.
- Bass:** One staff with a walking bass line. Chord changes are indicated as C and F7.
- Drs.:** One staff with a drum pattern consisting of eighth notes and rests.

A large red watermark reading "Preview Only" is overlaid diagonally across the entire page, and "Legal Use Requires Purchase" is written below it.

C Jam Blues

The musical score is arranged in a standard orchestral layout. The instruments and their parts are as follows:

- Alto:** Two staves, both containing whole rests.
- Tenor:** Two staves. The upper staff contains a melodic line with notes and rests, including a slur over the first measure. The lower staff contains whole rests.
- Bari.:** One staff containing whole rests.
- Tpt. 1-3:** Three staves, all containing whole rests.
- Tbn. 1-3:** Three staves, all containing whole rests.
- Vln.:** One staff containing whole rests.
- Gtr.:** One staff with rhythmic slash notation. Chord changes are indicated above the staff: G7, Db9, C, and Db9.
- Pno.:** Two staves. The upper staff shows chord voicings for G7, Db9, C, and Db9. The lower staff shows bass notes and rests.
- Bass:** One staff with a walking bass line.
- Drs.:** One staff with a drum pattern consisting of eighth notes and rests.

Chord changes for the guitar and piano are: G7 (measures 1-2), Db9 (measures 3-4), C (measures 5-6), and Db9 (measures 7-8). A Tenor saxophone solo is present in the first two measures, starting with an A7 chord and ending with a D chord.

E

The musical score is arranged in a standard orchestral layout. The instruments and their parts are as follows:

- Alto:** Two staves, both containing whole rests.
- Tenor:** Two staves, both containing whole rests.
- Bari. (Baritone):** One staff containing whole rests.
- Tpt. 1 (Trumpet 1):** One staff containing whole rests.
- Tpt. 2 (Trumpet 2):** One staff containing whole rests.
- Tpt. 3 (Trumpet 3):** One staff containing whole rests.
- Tbn. 1 (Tuba 1):** One staff containing whole rests.
- Tbn. 2 (Tuba 2):** One staff with a melodic line starting with a plunger mute, including notes and rests, and the vocal-like syllables "ya ya".
- Tbn. 3 (Tuba 3):** One staff containing whole rests.
- Vln. (Violin):** One staff containing whole rests.
- Gtr. (Guitar):** One staff with a C chord and a slash indicating a muted or rhythmic part.
- Pno. (Piano):** Two staves with a C chord and a sustained chord in the right hand.
- Bass:** One staff with a C chord and a melodic line.
- Drs. (Drums):** One staff with a C chord and a rhythmic pattern including HH 1/2 open and Chinese Cymbal.

A large red watermark reading "Preview Only" is oriented diagonally across the page, and "Legal Use Requires Purchase" is written below it.

C Jam Blues

This musical score is for a blues jam session titled "C Jam Blues". It is arranged for a large ensemble including Alto, Tenor, Bari., Tpt. 1, 2, 3, Tbn. 1, 2, 3, Vln., Gtr., Pno., Bass, and Drs. The score is written in 4/4 time and features a key signature of one sharp (F#). A large red watermark reading "Preview Only" is overlaid diagonally across the page.
